EXPERIENCE: **THERESA M. WILSON, CPA**

Nashville, Tennessee

April 2004 – March 2019

Owner of Practice. Served as AquAeTer’s outside CPA since 2004 before joining the team full-time. During years of Practice, served an interesting and varied body of clients including businesses established in such industries as commercial real estate, architecture, engineering, software design services, music and music production, fitness, retail, event planning, residential and commercial construction, special services to the construction industry; operating in as many as 23 states. Individual client base included, among others, the business owners and majority shareholders affiliated with the business groups mentioned, as well as physicians, academic researchers, teachers, retirees, illustrators, musicians and certain Trusts. Performed tax planning and detailed analytical work designed to aid small-business owners and Board of Directors in making crucial business decisions; including calculating and interpreting the results of numerous financial ratios, determining staffing needs and comparisons to industry standards and offering a truly in-depth examination of where the companies have been and offering valuable perspective on how they can reach their intended goals.

PRICE CPA’s, LLC

Nashville, Tennessee

October 2000 – April 2004

Tax Manager. Peak-season responsibilities included the QC review of income tax returns prepared by upper-management, detail review of returns prepared by other associates and preparation of income tax returns for primarily small-businesses and individuals. In addition, off-season responsibilities included assisting in business valuations analysis, response and resolution of Federal and state inquiries, the oversight of the required filings of the tax-exempts and the annual returns for employee benefits plans.

AVALON BAY COMMUNITIES, INC.

Alexandria, Virginia

April 2000-October 2000

Tax Manager. Initial responsibilities involved the oversight of an expansive Sales and Use Tax project spanning three years for several West Coast States. This included the performance of state specific research, along with the design of a findings table that is user-friendly and effective at the property level to assist non-tax personnel in determining the tax consequences of certain purchases; especially costs in new construction. Additional responsibilities included updating REIT taxable income projections, REIT testing to ensure compliance, responding to state and Federal inquiries, and QC review of up to 35 corporate and partnership federal and state income tax returns. Relocated to Nashville with husband’s employment.
